

JURY STRUTS - 2 REQ'D.  
3/32" SOFT WIRE (COAT  
HANGER). FITS WITHIN  
BRACKETS IN WING &  
THROUGH BRACKETS  
IN STRUTS

NOTE ENDS BEND 5/8"

EXTENDED OUTLINE FOR .35 DISP.

1/4" X 1/2"

The diagram shows a cross-section of a wing and its internal structure. A dashed line outlines the extended shape of the wing for a .35 displacement. Two vertical lines represent the jury struts, which are connected to the wing by diagonal wires. The wires are labeled with a dimension of 1/4" X 1/2". The struts are shown with brackets at their ends, and the wires are shown passing through these brackets. The struts are also shown with brackets at their ends, and the wires are shown passing through these brackets. The struts are shown with brackets at their ends, and the wires are shown passing through these brackets.
