

The image is a technical drawing of a domino slab joint. At the top, a cross-section of a concrete slab is shown with a horizontal line representing the top surface and a vertical line representing the joint. A small rectangular block is shown on the right side of the joint. A line points from the label 'F6' to the joint. Below this, a text box contains a warning about reproduction. Further down, the title 'CONSTRUCTION EN DEPRON DE 6 mm SA INDICATION PARTICULIERE' is centered. The main part of the drawing shows a perspective view of the joint, with two parallel lines representing the joint's edges. A line points from the text 'jonc carbone Ø 1.5 collé sur l'aile et sur la chape' to the joint. At the bottom, a cross-section of the joint is shown, with a line pointing from the text 'sur le domino' to the joint.
